

COMPANY OVERVIEW

Tremont Management Services GmbH is an IT project staffing and recruiting agency that specializes in supplying external consultants for SAP projects in Germany and around the world.

CONSULTANT PORTFOLIO

Our primary focus is supplying SAP experts in the following modules:

- Business Warehouse
- SEM / IP
- mySAP ERP and R/3 modules
- SAP EPM
- SAP Netweaver, EP, XI/PI
- SAP CRM
- SAP Technical Developers: ABAP specialists across all areas
- SAP Basis Administrators

Eighty percent of our consultants are native German speakers, from Germany, Switzerland, and Austria. The remaining 20% are from the Netherlands, UK, France and elsewhere. All our consultants are fluent English speakers.

TREMONT'S APPROACH

Our Account Managers and Recruiting Specialists screen and select each consulting candidate via a 4-layered screening approach:

- ✓ **CV Review:** Does the consultant's qualifications & skills match the requirement?
- ✓ **Gauging Interest:** Is the candidate interested and motivated in the project?
- ✓ **Interview:** Tremont conducts in-depth technical and soft-skill interviews. Technical questions are asked of the consultant to ensure that the candidate can perform the tasks and deliverables of the project timely and professionally.
- ✓ **Reference Checks:** Tremont performs reference checks on candidates that are presented to the client.

VALUE ADDED SERVICES

- Tremont is founded by SAP Business Intelligence consulting professionals. We have an in-depth understanding of the technical requirements of the project. Tremont's insight into SAP consulting allows us to deliver a higher level of service.
- Since Tremont is a niche oriented supplier, our margins for our service are competitively priced.
- Tremont also offers its key accounts a volume based discount in the case of repeat business.
- Tremont is flexible: we tailor our service to our clients needs, e.g. if a client predicts a need in a specific area, Tremont dedicates its Recruitment Specialists to this area.
